

TEMPLATE-BASED HIRE INSTRUCTIONS - HR PREPARERS

TEMPLATE: CLASS1_FACULTY

Template-Based Hire (TBH) in the HCM system provides HR Preparers with an electronic way to submit information about a new hire to the HCM Unit, Academic Labor Relations, or directly to the HCM database for processing. The TBH process utilizes pre-established templates that are aligned with particular employee types.

Groundwork:

Prior to starting a TBH in the system, Preparers should:

- A. Have a copy of the official Offer Letter because information from it is needed in order to complete a TBH. Offer letters must be on the department's letterhead and should contain:

- Appointment Start Date
- Appointment End Date (if applicable)
- Job Code
- Job Title
- Compensation Amount
- Hiring Authority's Signature
- Short Description of Job Duties

Note: Letter requirements vary by type of appointment and the nature of the work to be performed. Additional information may be required.

- B. Have the following Visa information if the employee is not a US Citizen:

- Country of Residence
- Visa/Permit Type
- Date of Entry into Country
- Visa/Permit Status
- Status Date
- Status Expiration Date

- C. Perform a Global Search to determine if an individual already exists in the system. If so, then a different type of transaction (e.g., Transfer, Reappointment, etc.) may be necessary.

Note: If the Global Search reveals the employee is already in the system and you are not sure how to proceed, please contact your HCM Specialist for guidance.

System Guidelines:

Templates – A variety of templates are available. Preparers should be sure to select the template that matches the job class and subcategory, if applicable.

Required Fields – All fields in the templates marked with an asterisk (*) are required and must be completed before the transaction can be submitted. In addition, at least one phone number is required on the “**Personal Information**” tab even though the phone fields are not marked with an asterisk.

System Icons – The following icons are available to assist Preparers with entering information:

Icon	Action
	Choose a date from the calendar.
	Look up or search for a value.
	Select a value from a drop-down list.

System Messages – Preparers should read all system messages presented while entering data into a TBH template because the content will help guide them to successful completion.

Comments Field – Preparers and Approvers can use the “**Comments**” field to share important information about a particular hire transaction with each other. If text has been entered into this field by someone else, then users should be careful not to overwrite it.

Save for Later – Preparers can exit out of a TBH template and go back to it later using the “**Save for Later**” button. Preparers can navigate back to the “**Hires in Process**” screen to locate and finish it. Navigation: Main Menu > Workforce Administration > Template-Based Hire > Template-Based Hire.

Visa/Citizenship Tab – This information is required. It is used to tax the employee appropriately and enables Payroll Services to be in compliance with Federal tax laws and treaties. If an employee is a U.S. Citizen, select “**Yes**” from the drop-down list. Other citizenship information is automatically populated after the selection. If the employee is not a U.S. Citizen, select “**No**” and fill in the additional required fields (e.g., Country of Residence, Visa/Permit Type, etc.).

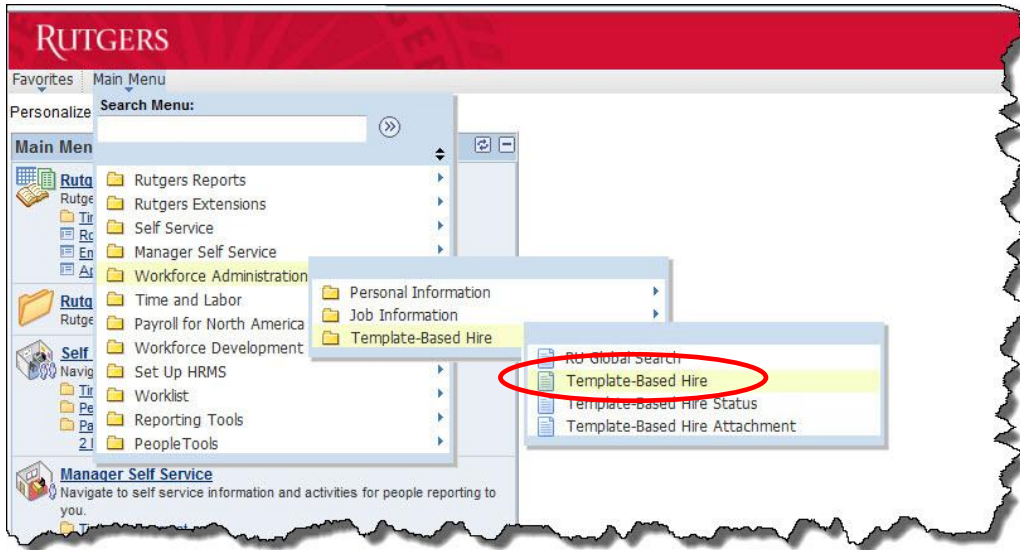

TEMPLATE-BASED HIRE INSTRUCTIONS - HR PREPARERS

TEMPLATE: CLASS1_FACULTY

Workflow & Next Steps:

Once submitted, the system:

- Routes the hire request to the department Approver.
- Sends a hire notification email to the Approver with instructions on next steps.
- Copies the Preparer on the email to the Approver.

Upon receipt of the email, the department Approver:

- Navigates to the hire request.
 - Reviews the data entered by the Preparer.
 - Approves the transaction, if the data is accurate and complete.
- OR
- Positions cursor underneath any existing notes in the “**Comments**” field – to ensure they are not overwritten – and types instructions for the Preparer about necessary changes into the field.
 - Routes the hire transaction back through the system to the Preparer for corrections.

If changes are required, then the Preparer:

- Makes the changes.
- Positions cursor underneath any existing notes in the “**Comments**” field – to ensure they are not overwritten – and types additional comments into the field for the Approver about the changes made.
- Selects the blank in the “**Template Complete**” drop-down list to reset the value to “**Yes**” and reactivate the “**Save and Submit**” button.
- Clicks on the “**Save and Submit**” button to send the hire transaction back to the Approver for review.

Once approved by the department Approver, the system automatically routes the hire transaction to the HCM Unit, Academic Labor Relations, or directly to the HCM database for processing.

After the TBH is processed, the system automatically sends a workflow email to the Approver to review and adjust the commitment accounting, if necessary.
